# FS Rinse Aid

Liquid Rinse Aid

# FS Rinse Aid

## Where to Use

FS Rinse Aid is a liquid rinse additive. It is a concentrated blend of surfactants that provide outstanding sheeting action to promote rapid drying and prevent spotting. FS Rinse Aid is designed for automatic injection into final rinse cycles of ware washing units, tunnel washers, and rack washers. FS Rinse Aid is hard water tolerant and biodegradable. Meets USDA Categories A-1 and G-5. Certified Kosher.

### Benefits

- Provides outstanding sheeting action to promote rapid drying and prevent hard water spotting.
- Designed for automatic injection into final rinse cycles of automatic ware washing units, tunnel washers, and rack washers.
- Saves time and energy.
- Concentrated blend of low foam surfactants.
- Designed for use in final rinse cycles as an additive during the cleaning of dishwashers.
- Hard water tolerant.
- Safe on all metals.

### Directions for Use

Washers: Add directly to rinse water by injecting with a metering pump or manually in a dilution of ¼ to ½ oz per gallon / 7.5 ml - 15 ml per 3.8 litres of water.

To increase surfactancy of cleaner solutions, add FS Rinse Aid at a dilution of ¼ - 1 oz per gallon / 7.5 ml- 30 ml per 3.8 litres of water.

Recommended use temperature 50-80°F (10-26°C).

Properties	
Color	Clear Colorless Liquid
Fragrance	Slight Detergent
Viscosity	15 cps
VOC's (none based on Vapor Pressure)	0%
pH	7.0
Readily Biodegradable	Yes
Phosphate Free	Yes

Available Package Sizes	Package Code	
4x1 gallon case	#11866227 	
5 gallon pail	#11886245
